

Seaside Vacation

"If you can count the **stars**, all the fish I caught this year will be yours."

“谁说数不清！我就能数得清。”大卫说完就开始数

起了星星，“1、2、3、4、5……”

“如果你能数清星星，我今年钓到的鱼都归你。”三角龙阿呆的话逗得大家哈哈大笑。

Stars

Stars are bright spots in the sky that move across the sky in predictable patterns.

Hello Emma, I am your reading partner Sparky! I know you love Snow White! Do you think she can see stars in the daytime?

Stars can't be seen during the day.

Great job! Yes, the sun is too bright during the day and covers up the starlights. Awesome! Next, let's explore together:
If Snow White goes to the forest at night, do you think she will see more or fewer stars than in the city?
